Automation without sacrificing Flexibility

AutoFiller & AutoSealer

Item #3500 & Item #1001

patent #5,450,710

Fast, Flexible and Efficient

Unique design allows you to fill and seal Rx Systems pill cards in less time, with less labor - at optimal control.

You Set The Pace...

Separate Filler and Sealer allow you to pre-fill and seal more than one card in rotation.

Changing card size or medication fast and simple...

No special tools or complicated calibrations.

Fewer moving parts...

Means less maintenance.

Just plug it in and you're ready to go...

No compressor means less noise - No tubes and lines to install.
