- Unique paddles reduce moisture during seal.

Accessories

- Sealing Paddles
- Paddle Rails
- Pressure Board
(For use with Sponge Trays)

Warranty

FULL Two Year warranty

Extended service contracts available.

Specifications subject to change without notice.

Fast, Versatile and Safe!

- **FAST**, 3 Second Seal Time is unmatched.
- **VERSATILE** Unit Converts from Single Dose to Multi-Dose instantly.
- The concealed heat plate, plus air-cooled outer shell provides a **SAFE** unit.
- Easy access and quick change parts for routine maintenance when required.
- Flat top design allows for additional workspace.

Our high-end AutoSealer motor produces 1,400 lbs of pressure that results in an industry leading 3 second seal time!

The unit converts from single dose to multi dose pill cards instantly by hand with removal of an insert without risk of injury or having to wait for the unit to cool before removing.

The shell is cooled by pulling cool air through multiple vents, including a fully cooled opening. The 2-button design to activate the heat plate makes the unit safe and reduces the risk of injury.

This high volume AutoSealer is built to last significantly longer than any other sealer on the market. It requires minimal maintenance and allows for easy access to fuses and other components. The unit only requires a 110 electric outlet, and does not require air compressor lines or additional hoses.
